EVENTS OF THE YEAR

On May 27, 2024, a delegation from the Ministry of Veterans Affairs of Ukraine, led by the Deputy Minister Ruslan Prykhodko, visited Veterans HUB ODESA

In a friendly circle, representatives of Veterans HUB ODESA discussed the features of implementing veteran policy in the region.

Ideas and visions of the future for the development of the veteran environment were also discussed. The guests were presented with directions for working with veterans, as well as the veterans club which operates on the basis of Veterans HUB ODESA.

Veterans HUB ODESA joined the cooperation with US veterans

On February 27, a teleconference with American and Ukrainian veterans, as well as experts on rehabilitation policies in the United States, was held at America House Kyiv, in which the head of Veterans HUB ODESA Oleksandr Holopoteliuk participated. During the teleconference, its participants exchanged views on the issues of rehabilitation in Ukraine taking into account similar experience in the United States of America.

Veterans HUB ODESA took part in the networking of civil society hubs from the International Foundation "Renaissance"

In total, the forum was attended by representatives of more than 30 organizations that in different cities of Ukraine play the role of hubs — places of interaction, training, exchange of experience and concentration of those who are concerned about the needs of others.

The meeting began with a discussion on the achievements, opportunities and limitations in hubs' work where one of the speakers was Oleksandr Holopoteliuk, the Head of Veterans HUB ODESA.

The forum helped not only to discuss achievements and challenges, but also to identify ways for further development and increasing the resilience of the public sector to today's challenges. This event demonstrated that only by combining the efforts of all stakeholders can we overcome obstacles and implement solutions that will contribute not just to the recovery, but also to the prosperity of Ukraine.

THE PROJECT “SHOT OF FAITH”

This is a social program, part of the "I'll Cover" project, organized by the family of the deceased Hero Ostop Makarov — Oleh Makarov and Alina Marshal, the NGO "Veterans HUB ODESA" and the company "STVOL", which provides premises and equipment for the shooting range for the implementation of the project.

The essence of the project is to adapt American military medical rehabilitation programs for combat veterans and their moral and psychological support.

The basis of the program is free visits to the shooting range and shooting with foreign weapons. This is especially important for veterans with disabilities and amputees: when they take up weapons in their hands, they feel like warriors again.

Over the 12 months of the “Shot of Faith” program, several hundred people have passed through the STVOL shooting range:

10-15 veterans every Wednesday.

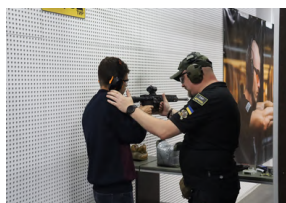

40/60 veterans every month.

Over **700** veterans during the project's existence.
